

### General information

Mancozeb is a carbamate fungicide used to protect many fruit, vegetable, nut and field crops against a wide spectrum of fungal diseases, including potato blight, leaf spot, scab (on apples and pears), and rust (on roses).

### Direction for use

Spray this product thoroughly on crop plants during early stage of fungi development.

Do not spray after wind or before raining.

**Dosage:** 2-3kg/ha. Spray 10 days later after last treatment. 2-3 times/ culture.

**Withdraw period from treated area:** 24 hours

### Maximum residue levels to treated crop:

10 mg/kg for apple pear and celery; 7 mg/kg for tomato, grape and cucumber; 2 mg/kg for carrots and sugar beet; 0.5 mg/kg for corn and peanuts

### Restricted use

Do not use this product near fishery waters. Do not mix use with pesticides containing copper, mercury and alkali pesticides.

### Precaution statement

Irritating to respiratory system; May cause sensitization by skin contact; Very toxic to aquatic organisms may cause long-term adverse effects in the aquatic environment.

## Mancozeb 80% WP Fungicide

Active Ingredient	w/w
Mancozeb.....	80%
Inert Ingredients.....	20%
Batch No:	Net contents:
Manuf. date:	Shelf life: 2 YEARS

### CAUTION

**KEEP OUT OF REACH OF CHILDREN!  
HAZARDS TO HUMANS AND DOMESTIC  
ANIMALS**

**Antidote: Atropine**

**Dose:** sulfate by intravenous administration at the doses rate of 2 to 4 mg every 15 minutes for 48 hours.

### Protective clothing to be worn

Wear waterproof gloves, chemical-resistant footwear plus socks, protective eyewear, and chemical-resistant headgear for overhead exposure.

### Storage and Disposal

Store under cover, in an appropriate room, away from heat and sources of fire at temperature <35°C. Keep away from food, drink and animal feeding stuffs. Do not store in room at temperature below -5°C.

Do not throw near ponds, rivers, ditches or into sewers. Wash contaminated surfaces with water and collect washing waters for treatment. Make sure that local regulations are respected. Triple or preferably pressure rinse containers before disposal. Add rinsing to spray tank. Do not dispose of undiluted chemicals onsite.

### First aid

**In halation:** Remove to fresh air. If not breathing, give artificial respiration. If breathing is difficult, give oxygen. Consult medical personnel.

**In eyes:** Immediately flush with plenty of water. Continue for at least 15 minutes. Seek the doctor for medical attention.

**Ingestion:** Immediately offer water to drink. Do not induce vomiting. Get medical attention.

**On skin:** Take off contaminated clothing, immediately wash affected skin with plenty of water.
